CRATER SAFARI LODGE LOCATION

Crater Safari Lodge is in a remote area and the journey to paradise is long, but eye-opening and scenic. The quickest route is by air. Crater Safari Lodge is located 7 km from the tropical rainforest of Kibale Forest National Park and is located on the banks of the Nyinabulitwa Crater Lake. Fort Portal is the closest town and is 22 km away.

Guests can fly into the main Entebbe International Airport (EBB) and catch a connecting flight to Kasese. From here, a road transfer to the lodge can be arranged and will take approximately two to three hours, depending on the road conditions.

Alternatively, guests can get a road transfer with a private driver from Entebbe to Crater Safari Lodge. This can take anything from 5 - 7 hours. The closest "big" town to Crater Safari Lodge is Fort Portal.

DRIVING DIRECTIONS

We recommend hiring a driver for the duration of your stay. Uganda is a developing country, which means the roads and infrastructure can be tricky to navigate.

If you are driving, these are the directions :

From Kampala follow the A109 Mityana Mubende Fort Portal Road. The winding road weaves through many small towns and villages, tea plantations, forests and lush farming regions. Immediately after Kampala you get the Mityana, Mubende., and Kyenjojo tea plantations.

A few more hours driving and you will see the sign for Kibale National Park. Shortly after this you will see another tea plantation then Fort Portal.

You reach the Fort Portal market called Mpanga, then cross the bridge. Immediately after the bridge turn left on Kamwenge road and drive for about twenty kilometres until you see the sign for "Crater Safari Lodge"

In total the journey takes anything from 5 - 7 hours.
